

What the seminar offers

- ◇ The focus of the seminar is on exam-type questions, with the primary emphasis being on math questions
- ◇ A large set of practice problems is provided, including both original and past exam problems
- ◇ Non-math questions from past exams are listed in the seminar outline provided, to illustrate topics that have been tested in the past and how those questions were worded
- ◇ An explanation of how exams are graded
- ◇ A review of all syllabus readings
- ◇ Suggestions on successfully preparing for the exam and answering the different types of exam questions
- ◇ Summary lists of past DP exam questions, indicating the source of the SOA's illustrative solution
- ◇ The instructor offers his support for the entire exam season, by being available to discuss questions that arise before and after the seminar
