What the seminar offers

- ◇ The focus is on exam-type questions, with the primary emphasis being on math questions
 - ◇ A large set of practice problems is provided, including both original problems and exam problems from past FSA exams that apply to the current syllabus
 - ◇ The instructor offers his support for the entire exam season, by being available to discuss questions that arise before and after the seminar
 - ◇ An explanation of how exams are graded
 - ◇ Suggestions on successfully preparing for
- the exam and answering the different types of exam questions
 - ◇ A review of the case study and all syllabus readings
 - ◇ Summary lists of past Advanced exam questions, indicating the source of the SOA's illustrative solution
 - ◇ Non-math questions from past FSA exams are listed in the seminar outline provided, to illustrate topics that have been tested in the past and how those questions were worded
